Surgery Consent

Patient/Owner: _____

Procedure(s): _____

I understand that, during the performance of this procedure, unforeseen conditions may be revealed that necessitate an extension or variance in the procedure(s) set forth above. I hereby consent to authorize the performance of such procedures as are necessary and desirable in the exercise of the veterinarian's professional judgment. I have been advised as to the nature of the procedure(s) and the risks involved. I realize the results cannot be guaranteed. I forever release said doctor, his or her agent of Animal Medical Clinic, from any and all liability arising from said surgery on said animal.

Laboratory Tests & Special Services

If your pet is to be anesthetized, rest assured that advances in anesthesia and surgery have made routine procedures relatively safe with a low rate of complications. Nevertheless, occasional problems can arise due to pre-existing conditions not evident during routine pre-anesthetic examinations. To avoid these problems, we recommend that patients be screened prior to anesthesia by means of the following tests. These tests are optional, unless otherwise specified.

PVC, Total Protein, Kidney Evaluation	YES	NO
<i>Patients under six years old</i>		\$65.00

PCV (Packed Cell Volume) determines whether or not there are enough red blood cells (if patient is anemic). Total Protein ensures that the patient is not dehydrated. Kidney Evaluation ensures kidneys can properly filter anesthesia.

CBC/Chemistry Panel	YES	NO
<i>Patients over six years old</i>		\$75.00

CBC (Complete Blood Count) and Chemistry Panel test includes everything listed for pets under six, but is more complex and fully tests all liver and kidney values.

Intravenous Fluids	YES	NO
<i>Patients over six years old</i>		\$54.00

Fluids are recommended for hydration. They also help the patient recover more smoothly, more rapidly filtering anesthesia through the system.

FeLV/FIV Combo Test	YES	NO
<i>Feline Patients</i>		\$41.00

Heartworm Test	YES	NO
<i>Canine Patients</i>		\$20.00

Surgery Consent

Pain Management

All Patients

Any pet undergoing a surgical procedure will receive one pain injection at the time of surgery that is included in the cost of the surgery.

An additional pain injection can be given the afternoon of the surgery. YES NO

Additional pain medicine can be sent home with a pet as well. YES NO

***The price of take home medication will be calculated per individual pet.*

Dental YES NO
All Patients \$60.00

A dental can be performed along with the pet's surgery.

Vaccinations

REQUIRED

Any pet undergoing a surgical procedure **MUST** be current on all vaccinations. If not current, your pet will be vaccinated at the time of surgery. If the pet's vaccinations were not given at AMC, proof of vaccination is required.
